

FOR COMPANIES · कंपनियों के लिए

Land for companies, on written mandates

बिल्डर, कॉलोनाइज़र और कॉरपोरेट के लिए भूमि सोर्सिंग

We find, verify and help assemble land — khasra by khasra, on written mandates, in a belt we actually walk: the Phulera–Sambhar–Naraina–Rupangarh corridor west of Jaipur and the wider Jaipur–Ajmer stretch along NH-48.

Test what can kill the site first

औद्योगिक, वेयरहाउसिंग और लॉजिस्टिक्स भूमि

Requirement types

Private industrial park ·
single manufacturing unit ·
warehouse / distribution
centre · cold chain / agri-
processing · logistics yard /
truck terminal · data centre
/ utility-scale.

The order of work

We test what can kill the
site before spending on
what can only improve it.

Three routes

RIICO allotment · private
purchase, then conversion ·
long lease.

What we are not

A private sourcing platform
— not RIICO and not a
government agency.
हम RIICO या सरकारी एजेंसी नहीं हैं।

The screenshot shows the Agrizameen website interface. At the top, the URL is agrizameen.com/industrial-land/. The header includes the Agrizameen logo, a 'Select State' dropdown, 'English' language selection, a user profile icon, and a 'Sign in' button. Below the header, there are navigation links: 'Buy Agricultural Land', 'Sell Agricultural Land', 'Land Records', 'Legal Services', and 'Apps & Tools'. The main content area is titled 'INDUSTRIAL · WAREHOUSING · LOGISTICS' and 'Industrial, Warehousing and Logistics Land'. It features a sub-header in Hindi 'औद्योगिक, वेयरहाउसिंग और लॉजिस्टिक्स भूमि' and a paragraph in Hindi and English describing the service. Below this, there are several buttons: 'The 2026 park policy', 'Land quantum estimator', 'Our 12-point site screen', 'Buy, lease or allotment', 'Why this belt', 'FAQ', and 'Send a requirement'. The text explains that an industrial or warehousing brief fails on infrastructure long before it fails on price. It also mentions the sourcing ground is the Phulera-Sambhar-Naraina-Rupangarh belt and the wider Jaipur-Ajmer stretch along NH-48. A section titled 'What the 2026 industrial park policy changed for land buyers' summarizes the policy as of July 2026. A box highlights 'The short version' of the policy, stating it opens private industrial park development through several models. A list of bullet points follows, detailing practical aspects, the need to read the policy text, and related state-level developments.

औद्योगिक, वेयरहाउसिंग और लॉजिस्टिक्स भूमि

औद्योगिक, वेयरहाउसिंग और लॉजिस्टिक्स के लिए ज़मीन। Contiguous blocks on truckable roads in the Jaipur-Ajmer belt — screened on power, water, effluent route and zone before anyone talks price.

The 2026 park policy Land quantum estimator Our 12-point site screen Buy, lease or allotment Why this belt FAQ Send a requirement

An industrial or warehousing brief fails on infrastructure long before it fails on price. Power feeder distance, a road a loaded trailer can actually turn into, drainage, an effluent route, a habitation buffer, and whether the zone permits the use at all — those decide the site. We screen for those first, and only then talk to owners.

Our sourcing ground is the Phulera-Sambhar-Naraina-Rupangarh belt and the wider Jaipur-Ajmer stretch along NH-48 — the corridor where the Dedicated Freight Corridor junction at Phulera, the Kishangarh side of the highway and the Kotputli-Kishangarh greenfield expressway all intersect. We are a private sourcing platform, not RIICO and not a government agency, and we promise no allotment, approval, timeline or return.

What the 2026 industrial park policy changed for land buyers

Summarised for planning as at July 2026 — verify the operative text before you commit capital.

The short version. Rajasthan's Industrial Park Promotion Policy 2026, launched in March 2026 with RIICO as nodal agency, opens private industrial park development through several models — development on RIICO land, fully private parks, land-sharing arrangements, and PPP or SPV structures where RIICO contributes land as equity. Private parks are framed around a floor of roughly **50 acres and a minimum number of industrial units**. In June 2026 RIICO invited applications under two of those models for parks spanning roughly 645 hectares across nine locations in the state.

- **What it means practically:** the scarce input for a park promoter in this belt is not capital or policy — it is a **contiguous 50-acre-plus block with a legal approach road**. That is an assembly problem across dozens of khasras and khatedar families.
- **Read it before you rely on it:** model conditions, minimum unit counts, subsidy ceilings and equity thresholds are all in the policy text. riico.rajasthan.gov.in · industries.rajasthan.gov.in
- **Related in the state:** a separate land allotment and pricing framework was approved in 2026 for the Jodhpur-Pali-Marwar industrial area, a DMIC node, with sector-specific lease tenures for warehousing, logistics and plug-and-play facilities. Different geography from our belt, but it signals where industrial township land structuring in Rajasthan is heading.

How much land do you actually need to source?

Evacuation first, everything else after

सोलर में सबसे पहले बिजली निकासी देखी जाती है।

A renewables land brief is not a real-estate brief. Road frontage barely matters. A block that fails on evacuation fails at any price.

- 1 Evacuation point: distance & voltage**
- 2 Contiguity & shape**
- 3 Terrain, slope, shading**
- 4 Khatedar count & co-owner trees**
- 5 Ceiling exposure**
- 6 Encumbrance**
- 7 Access track for oversize loads**
- 8 Cultivation, grazing & habitation**
- 9 Conversion route**

Can we handle 500 or 1,000 acres? Not in our belt, honestly. We publish no per-bigha lease rate, because there is no notified rate.

बड़े रकबे के लिए हम साफ़ बताते हैं।

SKAY (Rajasthan) FAQ Send a requirement

A renewables land brief is not a real-estate brief. Road frontage barely matters. What matters is the distance and voltage of the nearest evacuation point, whether the block is contiguous enough to lay an array across, whether the terrain and shading work, and whether thirty khatedar families will sign the same document on the same terms.

We source and help structure land for solar, battery storage and hybrid projects in the Phulera-Sambhar-Naraina-Rupangarh belt and the wider Jaipur-Ajmer corridor — usually on long lease, occasionally on purchase, always with the ceiling and title questions raised before the first agreement rather than after the thirtieth. We are not an EPC, not a consultant to DISCOMs, and not a government body.

How much land does your capacity need?

MW to land — indicative quantum estimator

Land intensity is the first number a renewables land brief needs. Published planning ranges for utility-scale solar sit at roughly 3.5 to 5 acres per MW depending on technology, tilt, row spacing and terrain; wind is far less land-hungry per MW but needs specific micro-siting. Pick the intensity your own layout uses.

Three questions

What does the record say the
land is? Is it inside a planning
area? Which conversion route
applies?

What we will not say

We do not tell you a resort is
permitted on a parcel — and
water that is fine for a crop
can be wrong for a hotel. We
do not project occupancy,
tariffs, footfall, land price or
returns.

Giving back — recorded, not claimed

ज़मीन, उसके लोगों और जीवों को कुछ लौटाना

Sponsor a plantation

Every sponsored planting is recorded — species, count, GPS location, planting date and photographs. We do not guarantee survival of any individual tree.

Carbon credits from farmland

We explain the route — activity, ICM portal registration, PDD, validation, monitoring, verification. We are not an accredited verification agency, a registry or a project developer; we do not issue or buy credits.

What it is not

We are not registered with any government authority as an implementing agency; contributions should not be treated as qualifying CSR expenditure under Section 135, and a tree is not a carbon credit.

No price quoted

There is no guaranteed price for a credit, and we will not quote one.

Paper first, conflicts in writing

हमारा तरीका

NDA

Do you sign an NDA? Yes, and we prefer to.

Conflicts disclosed

If we hold an interest in a parcel, or are engaged by the seller side on it, you get that in writing before you see the parcel.

Separate roles

The party checking the work should never be the party being paid for it.

Fees

Fee basis agreed in the written mandate, before any work. No cash-only structures.

No promises

We do not promise appreciation, returns or a resale price. Land is market-linked and nothing here is investment advice.

Not an authority

Not a government body, not a land-acquisition authority, and not affiliated with any revenue, urban or industrial development department.
